

International Association for Cultural Studies in Architecture

Cultural Studies in Architecture is a field of empirical and theoretical scientific interest and application—explicitly not one more subdiscipline, but an open thematic realm. Cultural Studies in Architecture invite to theorise the built environment in ways that are not obscured by authorised ideologies or canonised practises. Thus **Architecture** defines the association's place in the world, whereas **Cultural Studies**, a set of methods and ways of theorising as much established as contested and varied, contribute to mirroring of the perspectives of life and living.

The **International Association for Cultural Studies in Architecture** IACSA is an association according to Swiss law, founded in 2008. It consists of the Advisory Board, the Working Board, and the Network Editor.

IACSA **membership** is open for everyone interested and willing to contribute to build the network. IACSA's registered office's address is at Hammerstrasse 14, 4058 Basel, Switzerland. The IACSA Newsletter is published every few months in electronic form. Membership is free. If you sense that the idea of IACSA covers the fields of your interest you are welcome to participate as a member of the **Working Board**. Simply write an informal request to iacsa@iacsa.eu.

IACSA issues in its second year a **Newsletter** which can be accessed at

www.iacsa.eu

Advisory Board members:

Pauline von Bonsdorff, FI
Ingrid Breckner, DE
